

## Nando's Chicken Canada, Newest MeazureUp Customer

**Toronto, ON, Canada** – August 30, 2017 – Renowned restaurant chain, Nando's Chicken has selected MeazureUp, the leader in digital field assessment and operational analytics to help ensure consistency across their 43 Canadian locations.

With the roll out already complete, George Hantziagelis, Vice President of Operations at Nando's recently said, "This program is helping us to safeguard brand consistency between each Nando's location across Canada, all working towards our goal of creating the best possible guest experience. With the level of data and analytics readily available to us by the MeazureUp platform, we now can pre-emptively identify core concerns before they become impactful issues. This is something that in the past, took considerable more work and time to accomplish."

Nando's has created a family oriented fast casual restaurant, marketing "PERi-PERi" Portuguese and South African style chicken to the masses. With their vast array of different sauces and spices, Nando's offers a unique and tasty experience for anyone looking for something more than just a simple chicken dinner.

To help elevate what is already an incredible dining experience, the MeazureUp solution offers Nando's management the ability they need to make more informed and intelligent operational decisions. With in-audit functionality such as live photo, comment and action plan collection, all accessible from the MeazureUp application on any mobile phone or tablet, Regional Operations Managers (OM) at Nando's are armed for success. Once each OM completes their assessment, an email summary is automatically sent to all relevant stakeholders. From the MeazureUp Business Intelligence Center, management can see in real time, the full analysis and breakdown of each assessment aggregated together all in one place.

MeazureUp is looking forward to working with George and the rest of the Nando's Canada team!

### **About Nando's Chicken:**

It all started in 1987, in a suburb of Johannesburg called Rosettenville. A man named Fernando Duarte invited Robbie Brozin to a humble eatery to try some mouth watering PERi-PERi chicken. The rest, as they say, is history. Seven years later, Nando's landed in the Canada. At Nando's it's not about the chicken, it is about the people who make the chicken. Originating in South Africa,

Nandos now has restaurants in 24 countries around the world. For more information, visit the Nando's website <http://www.nandos.ca/> or call 905-564-1118.
