

New Customer Alert: Zippy's - Food Haven in Hawaii

Toronto, ON, Canada – October 25, 2017 – There are many things one can think of when it comes to food in Hawaii... and that's Zippy's. Today, MeazureUp is proud to welcome Zippy's as their newest customer. Dubbed as the 'Restaurant of Choice' for Hawaii, MeazureUp was selected by Zippy's to help foster their business growth into the future.

Today, Zippy's is an expanding chain with 24 locations in the State, with 22 on the island of Oahu, one on Maui, and one on the Big Island. The brand's popularity lies in their ability to provide unique twists on local cuisine to attract both local customers and people from all over the world. With menu items like Zippy's signature original Recipe Chili, there are a few reasons why customers are loyal to the brand. As they continue to grow further, the need to add standardized and easily executable operations is key to their success. The Zippy's Operations team is enthusiastic to deploy a tool like MeazureUp, as they feel that this is the right time for it. MeazureUp will not only aid these efforts greatly, it will ensure operational consistency while managing expectations in future demand.

MeazureUp offers Zippy's a way to manage operational consistency whether they have 24 or 50 stores and as they continue to scale, MeazureUp will support them along the way. Using any Apple or Android mobile device, staff can track all information from one convenient place; take photos, add comments and create follow-up plans with ease. From there, management can see detailed analytics and begin to spot operational trends on what's succeeding and what needs improvement. All this functionality is accessible in real-time, saving countless hours of time converting handwritten or typed notes into a quality report.
